

Statement of Compliance – ANC-AD and Hotline

As part of the National Cybersecurity Agency of Andorra (ANC-AD)'s integration into the INHOPE network, the following is confirmed regarding the national hotline:

1. Information for reporters on Internet safety

Yes, the hotline provides relevant information and links for individuals wishing to report online child sexual abuse material. These resources include best practices for online safety and responsible use of digital technologies.

2. Visibility of contact details

Yes, the hotline's contact information is clearly visible and easily accessible on the official ANC-AD website, specifically in the section dedicated to reporting illicit online content.

3. Information on cooperation with law enforcement

Yes, the hotline's website includes clear information about its active and ongoing cooperation with law enforcement authorities, both nationally and internationally, in combating online child sexual abuse.

4. Terminology used in external communication

Yes, in all external communications, the hotline uses the term "child sexual abuse material" in accordance with international standards set by INHOPE and other reference bodies. The term "child pornography" is not used.
